PROJECTS

Rooms Booking System with Admin Console

INDEPENDENT PROJECT

- Developed a complete room reservation portal using React.js, Material UI (MUI v5), Node.js, and MongoDB.
- Designed an attractive client interface with responsive cards and calendar checks to select reservation dates.
- Created a robust admin panel layout with side navigations and table filters to track bookings and manage room statuses.
- Resolved booking conflicts by implementing custom date-overlap validations on both frontend and backend queries.

Learning Management System

YOHO TECHNOLOGY

- Developed a learning platform enabling institutes to manage and conduct classes online and offline.
- Utilized Material UI (MUI) to design the responsive layout and implemented custom functions to perform core application operations.
